## 2.2 – Empathy Map Canvas

### Says

- I need to understand electricity usage
- I want to find areas with low electricity consumption.
- I need insights to manage energy efficiently.

### Thinks

- How can we predict electricity demand?
- Which areas use electricity?
- How can we use energy resources effectively?

# Plugging into the Future: An Exploration of Electricity Consumption Patterns using Tableau

---

## Does

- I look at electricity consumption data.
- I use Tableau dashboards and stories to analyze it.
- I compare usage over the years across states and regions.

## Feels

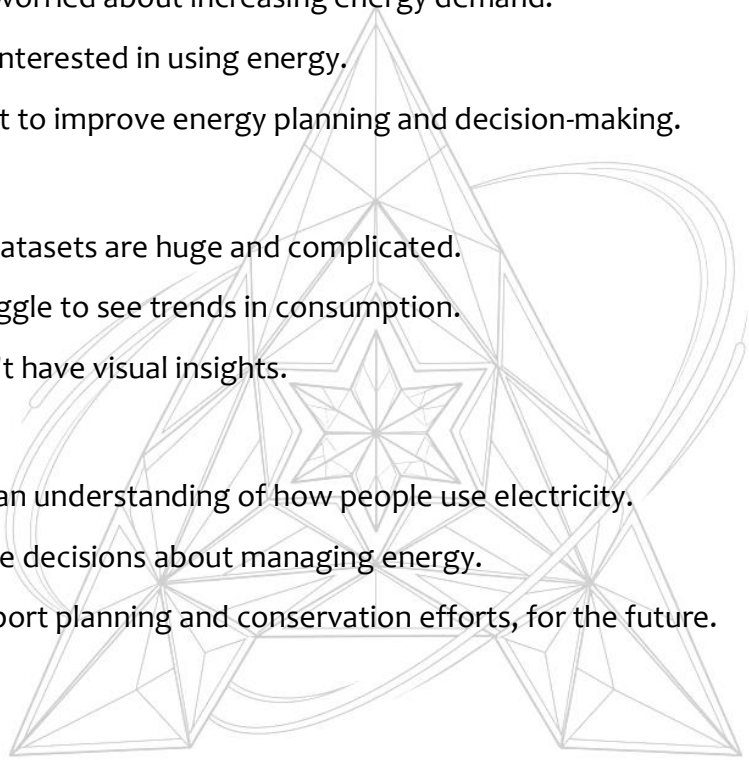

- I am worried about increasing energy demand.
- I am interested in using energy.
- I want to improve energy planning and decision-making.

## Pains

- The datasets are huge and complicated.
- I struggle to see trends in consumption.
- I don't have visual insights.

## Gains

- I get an understanding of how people use electricity.
- I make decisions about managing energy.
- I support planning and conservation efforts, for the future.
